Technology Licenses

The hardware and/or software described in this document are furnished under a license and may be used or copied only in accordance with the terms of such license.

U.S. Government Rights

The Software is “commercial computer software,” as defined by Federal Acquisition Regulation (“FAR”) 2.101. Pursuant to FAR 12.212 and 27.405-3 and Department of Defense FAR Supplement (“DFARS”) 227.7202, the U.S. government acquires commercial computer software under the same terms by which the software is customarily provided to the public. Accordingly, Keysight provides the Software to U.S. government customers under its standard commercial license, which is embodied in its End User License Agreement (EULA), a copy of which can be found at <http://www.keysight.com/find/sweula>. The license set forth in the EULA represents the exclusive authority by which the U.S. government may use, modify, distribute, or disclose the Software. The EULA and the license set forth therein, does not require or permit, among other things, that Keysight: (1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public; or (2) Relinquish to, or otherwise provide, the government rights in excess of these rights customarily provided to the public to use, modify, reproduce, release, perform, display, or disclose

commercial computer software or commercial computer software documentation. No additional government requirements beyond those set forth in the EULA shall apply, except to the extent that those terms, rights, or licenses are explicitly required from all providers of commercial computer software pursuant to the FAR and the DFARS and are set forth specifically in writing elsewhere in the EULA. Keysight shall be under no obligation to update, revise or otherwise modify the Software. With respect to any technical data as defined by FAR 2.101, pursuant to FAR 12.211 and 27.404.2 and DFARS 227.7102, the U.S. government acquires no greater than Limited Rights as defined in FAR 27.401 or DFAR 227.7103-5 (c), as applicable in any technical data.

Safety Notices

CAUTION

A **CAUTION** notice denotes a hazard. It calls attention to an operating procedure, practice, or the like that, if not correctly performed or adhered to, could result in damage to the product or loss of important data. Do not proceed beyond a CAUTION notice until the indicated conditions are fully understood and met.

WARNING

A **WARNING** notice denotes a hazard. It calls attention to an operating procedure, practice, or the like that, if not correctly performed or adhered to, could result in personal injury or death. Do not proceed beyond a WARNING notice until the indicated conditions are fully understood and met.

Where to Find the Latest Information

Documentation is updated periodically. For the latest information about this product, including instrument software upgrades, application information, and product information, browse to the following URL:

<https://www.keysight.com/find/m9384b>

To receive the latest updates by email, subscribe to Keysight Email Updates at the following URL:

Keysight M9384B VXG Rack Mount Kit

Installation Guide

Y1164A Rack Mount Kit

To Be Performed By:	(X) Keysight Service Center
	(X) Personnel Qualified by Keysight
	(X) Customer
Estimated Installation Time:	1.0 Hour

This rack mount kit provides all parts and documentation required to install the M9384B into a standard Keysight rack.

Contents

Item #	Quantity	Description	Part Number
1	2	Bracket, Front	M9043-00001
2	2	Bracket, Rear	M9043-00002
3	2	L Bracket	M9018-00108
4	2	Front Handle	M9018-21101
5	4	Crest-Cup Pan-HD TORX-T25 M5X0.8 10mm-LG	0515-0386
6	4	Phillips-Recess M5X0.8 8mm-LG	0515-5827
7	16	Phillips-Recess M4X0.7 10mm-LG	0515-5828

Figure 1 Rack Mount Kit with Item Numbers Listed

Overview

Figure 2 Y1164A Rack Mount Kit Assembled on a M9384B VXG

In Figure 2, you can see the entire rack mount kit and how it looks when it is fully assembled and attached to the M9384B VXG.

Tools Required

- Torx Drivers: T-10, T-20, T-25
- Phillips head screwdriver
- Flat head screwdriver

Preparation

Before starting the procedure, the instrument needs to be prepared for the rack mount kit by removing the side trim strips and strap handles from the instrument chassis. If necessary, the feet on the instrument can also be removed.

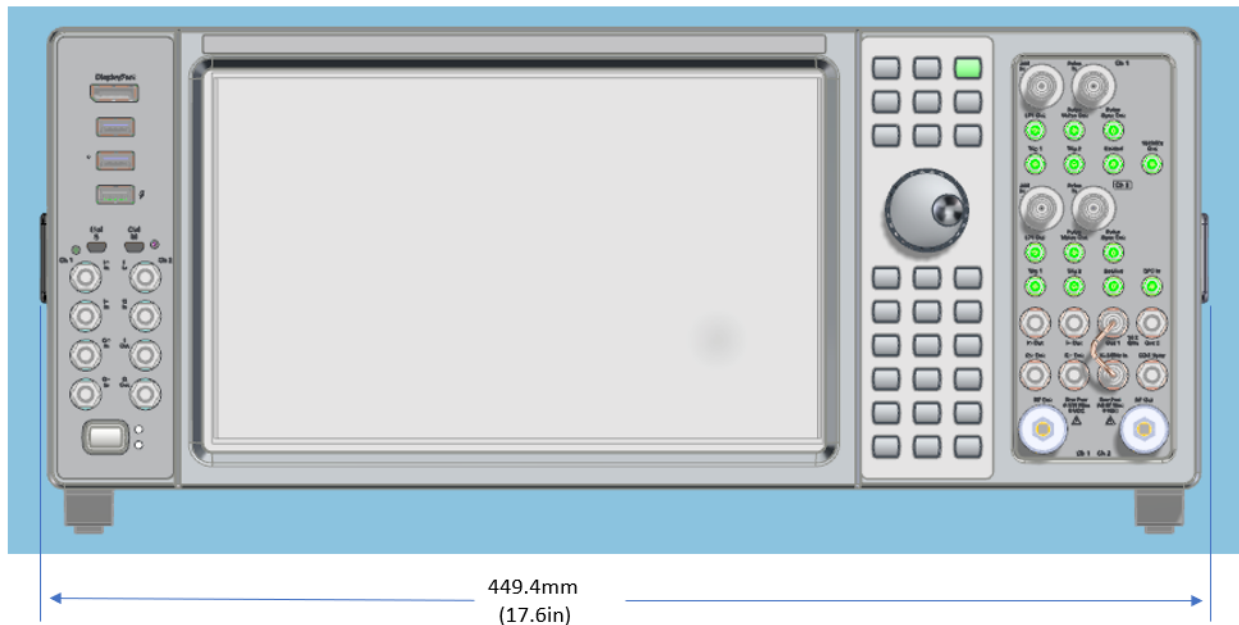

To remove the strap handles from the chassis, a Torx-10 driver must be used to loosen and remove the screws connecting the strap handles to the instrument.

Use a flat head screwdriver to loosen and remove the side strips.

To remove the feet, the gray rubber inserts must be removed from the feet, then a Torx-20 driver must be used to loosen and remove the screws holding them in place.

Width Considerations

Figure 3 Instrument Dimensions

With the side trim strips and strap handles removed, the instrument has a width of 449.4mm. When the rack mount plates are installed, the width should remain at 449.4mm. The standard instrument rack has an internal rail to rail width of 450.8mm, which only leaves 1.4mm of space to fit the instrument.

Kit Installation and Instrument Mounting Procedure

1. Attach front handles to front mounting brackets using the Phillips-Recess M5X0.8 8mm-LG screws (0515-5827).
2. Mount front handle/bracket assemblies to instrument, using 5 Phillips-Recess M4X0.7 10mm-LG screws (0515-5828) on each side.

Figure 4 Steps 1 and 2

3. Mount rear brackets to unit, using 3 Phillips-Recess M4X0.7 10mm-LG screws (0515-5828) on each side. Do not install L brackets at this time.

Figure 5 Step 3

4. Mount instrument to rack and secure front bracket assemblies to rack rails. Take care to avoid damage to the instrument. (See **“Width Considerations”** on page 7)

5. Install L-bracket to rear mounting bracket using 2 Crest-Cup Pan-HD TCRX-T25 M5X0.8 10mm-LG screws (0515-0386) on each side.

Figure 6

Step 5

6. Secure rear bracket assemblies to rack rails.
